	Why does the sun move across the sky each day?		How can we see different objects?	How did giraffes come to have such long necks?	Why do some offspring look like their parents and others do not?	
	<ul style="list-style-type: none">describe the movement of the Earth, and other planets, relative to the Sun in the solar systemdescribe the movement of the Moon relative to the Earthdescribe the Sun, Earth and Moon as approximately spherical bodiesuse the idea of the Earth’s rotation to explain day and night and the apparent movement of the sun across the sky.		<ul style="list-style-type: none">recognise that light appears to travel in straight linesuse the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eyeexplain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyesuse the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.	<ul style="list-style-type: none">recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years agorecognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parentsidentify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.	<ul style="list-style-type: none">describe the differences in the life cycles of a mammal, an amphibian, an insect and a birddescribe the life process of reproduction in some plants and animals.describe the changes as humans develop to old age.describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animalsgive reasons for classifying plants and animals based on specific characteristics.	
	NEED TO KNOW					
<ul style="list-style-type: none">Earth is the planet we live on. It is the third planet from the Sun.The Sun is the star at the centre of our solar system.The Moon is the only natural satellite of the Earth.Planets are large round objects made of rock or gas, that move around the sun.The solar system is the Sun and all the planets that orbit around it.A star is a huge ball of glowing gas in space.When an object rotates it turns (spins) on its axis.The orbit is the curved path that an object follows going around a star or a planet.	<ul style="list-style-type: none">A light source is a natural or artificial source of light.Light travels in straight lines.We see light from a light source when it enters our eyes.A light ray is a line of light travelling in a straight line from its place of origin.Reflecting is to throw back light from a surface.For objects that are not a light source, light must be	<ul style="list-style-type: none">Evolution is the way in which plants and animals have changed over millions of years.Offspring are a person’s child/children or an animal’s young.Inherited is a trait or characteristic that is passed to offspring from parents.Characteristics are a distinguishing trait, feature or quality.	<ul style="list-style-type: none">Living Things can be classified into broad groups according to observable characteristics that are similar or different.Vertebrates are animals that have a backbone. They can be divided into 5 groups: fish, amphibians, reptiles, birds and mammals.Fish are cold-blooded, have scales covering their bodies, have fins, live in water, lay eggs in water and breathe through gills.Amphibians are cold-blooded, start as eggs in water and breathe through gills, later develop lungs and live on land and in water, lay eggs in water, have damp skin.Reptiles are cold-blooded, breathes with lungs, has dry scaly skin, lay soft-shelled eggs on land.			

	<ul style="list-style-type: none"> There are 8 planets in our solar system: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune. Pluto is a dwarf planet at the edge of our solar system. The Moon orbits the Earth. It takes about 28 days to complete its orbit. The Earth orbits the Sun. It takes 365 $\frac{1}{4}$ days to complete its orbit. This is a year. Every 4 years we have a Leap Year of 365 days. The Earth rotates (spins) on its axis once every 24 hours. This gives us day and night depending on which part of the Earth is facing the sun or away. 	<p>reflected from the object into our eye for us to be able to see it.</p> <ul style="list-style-type: none"> A shadow is a dark area created where light from a light source is blocked by an object. The object blocking the light will be opaque or translucent. Shadows have the same shape as the objects that cast them, because light travels in straight lines. 	<ul style="list-style-type: none"> Variation is a small change or difference. Living things produce offspring of the same kind. Offspring are not normally identical to their parents and vary from each other. Animals and plants are adapted to their environment. Their bodies are suited to the way they live. Adaptation can lead to evolution of the environment changes. Animals and plants with variations that are best suited to the environment survive in greater numbers to reproduce and pass their characteristics on to their young. This is natural selection. Over time inherited characteristics become more dominant within a population. Species are a group of closely related organisms that are very similar to each other. Fossils are naturally preserved remains or traces of animals or plants that lived a long time ago. By studying fossils, scientists can put together how a plant or animal looked. They can identify what it ate, where it lived and how it died. 	<ul style="list-style-type: none"> Birds are warm-blooded, breathe with lungs, lay eggs with hard shells, covered with feathers, have wings but not all can fly. Mammals are warm-blooded, have fur or hairy skin, give birth to live young, feed milk to their young. Invertebrates are animals that do not have a backbone. They can be divided into several groups including insects, spiders, snails and worms. Plants can make their own food. They can be divided broadly into two main groups: flowering plants and non-flowering plants. Micro-organisms are tiny living creatures. Most can only be seen through a microscope. They can be sub-divided into smaller groups including bacteria, viruses and fungi. A life cycle shows how things are born, how they grow and how they reproduce. Mammal life cycle: the female gives birth to live young. The young looks like the adult. The female provides milk for the young. Amphibian life cycle: eggs are laid in water. The young go through different forms before looking like the adult. The parents do not care for the young. Insect life cycle: eggs are laid and then hatch. Some grow into adults but most go through metamorphosis. Metamorphosis is a major change from one form to another during the life cycle of an animal. Bird life cycle: eggs are laid in a nest. The young hatch from the egg and grow into the adult. The parents care for the young after hatching. Plants reproduce both sexually and asexually. Sexual reproduction needs both a male and female parent. Asexual reproduction is where only one parent is needed. This occurs mostly in plants and bacteria. In plants, sexual reproduction occurs through pollination usually involving wind or insects. Asexual reproduction in plants involves only one parent using bulbs, tubers, runners or cuttings.
	VOCABULARY			
	Earth; Sun; Moon; planets; Mercury; Venus, Mars; Jupiter; Saturn; Uranus; Neptune; Pluto; solar system; star; rotate; orbit	Light source; straight lines; light ray; reflect; shadow; opaque; translucent	Evolution; offspring; inherited; characteristics; variation; adapted; environment; natural selection; species; fossil	Life cycle; reproduction; sexual reproduction; asexual reproduction; metamorphosis; runner; bulb; cutting; tuber; vertebrate; invertebrate; fish; amphibian; reptile; bird; mammal; plant; micro-organism; classification

RE	Term1	Term 2	Term 3	Term 4	Term 5	Term 6
	Understanding Christianity: CREATION 2b.2 – Creation and Science: conflicting or complementary?	Understanding Christianity: INCARNATION 2b.4 – Was Jesus the Messiah?	Discovery RE: ISLAM Y6 Autumn 1 – What is the best way for a Muslim to show commitment to God?	Understanding Christianity: SALVATION 2b.6 – What did Jesus do to save human beings?	Understanding Christianity: KINGDOM OF GOD 2b.8 – What kind of king is Jesus?	Discovery RE : ISLAM Y6 Summer – Does belief in Akhirah (life after death) help Muslims lead good lives?
	<ul style="list-style-type: none"> Pupils know that there is much debate and controversy around the relationship between creation stories in Genesis and scientific accounts. They can outline both points of view. They know that there are many scientists who are also Christians. Pupils know that the discoveries of science often make Christians even more in awe of the power and majesty of God. Pupils know that some of this controversy is connected with the way in which the Genesis text is interpreted and the genre of writing it is considered to be; i.e. poetic account or historical account. Pupils know that not all Christians believe the same about the relationship between Creation and science. Pupils know and understand the significance of Psalm 8 for the Christian belief in stewardship. 	<ul style="list-style-type: none"> Pupils know that Jesus was Jewish. They understand that 'Christ' is the Greek word for 'anointed one', or 'Messiah'. And that the Old Testament talks about a 'rescuer' or 'anointed one' – a Messiah. That Isaiah 9 v2-7 texts talks about what this 'Messiah' would be like. Pupils know that most Christians believe Jesus is God incarnate and they believe that his birth, life, death and resurrection were part of a longer plan by God to restore the relationship between humans and God. Pupils understand that Christians believe that Jesus fulfilled these expectations, and that he is the Messiah. (Jewish people do not think Jesus is the Messiah.) That Christians see Jesus as their Saviour (See Salvation). They can give their own view to answer the questions 'Was Jesus the Messiah?' supported by a reasoned argument 	<p>I can show an understanding of why people show commitment in different ways.</p> <p>I can describe how different practices enable Muslims to show their commitment to God and understand that some of these will be more significant to some Muslims than others.</p> <p>I can think of some ways of showing commitment to God that would be better than others for Muslims.</p>	<ul style="list-style-type: none"> Pupils will know that Christians believe that Jesus sacrifice on the cross was a way of paying for all the sins of mankind. That as a result they have been 'saved' or rescued by God. Pupils know the outline of events of the crucifixion (Passion narrative) from John 19. That is: The soldiers mock Jesus: Trial before Pilate; Jesus carries his cross; Soldiers crucify Jesus; Jesus Mary and John; Jesus dies; Jesus side is pierced; Jesus is buried in Joseph's tomb. Pupils know about the Isaiah 53 passage and can make connections to John 19 using the idea of the suffering servant. They use terms like Messiah, Passion, Salvation and Sacrifice in theological context. They know that Christians remember Jesus' sacrifice through the service of Holy Communion/ Lord's Supper/The Eucharist/the Mass). They are able to explain denominational difference in practice. They know that some Christians feel called to sacrifice their own needs to the needs of others and they can give an example of this. 	<ul style="list-style-type: none"> Pupils know that Jesus told many parables about the Kingdom of God and they can describe at least one in detail (the feast, the tenants in the vineyard, the unforgiving servant). Pupils know that many Christians believe that Jesus teaching suggests that there will be a future kingdom where God's reign will be complete. Pupils know that many Christians try to extend the kingdom of God by challenging unjust social practice and by practising forgiveness. Pupils know the Lord's Prayer and can explain how this describes the Kingdom of God 	<ul style="list-style-type: none"> I can give examples of times my choices have been influenced and may have changed when I considered the consequences that might follow. I can explain how believing in Akhirah influences Muslims to do their best to lead good lives. I can recognise what motivates or influences me to lead a good life and compare it with what motivates and influences Muslims. I can give examples of times when I misinterpreted something. I can explain two different Muslim interpretations of Jihad. I can recognise what motivates me or influences me to lead a good life and compare it with what motivates and influences Muslims.
NEED TO KNOW						
	<ul style="list-style-type: none"> Where creation fits into the BIG FRIEZE. Genesis from the bible It's in the old testament Some people including come Christians disagree with Genesis. Some people instead believe in a contemporary scientific account 	<ul style="list-style-type: none"> Where incarnation fits into the BIG FRIEZE. God the father. God the Son is Jesus. This is God in human form. God the holy spirit. This was sent when Jesus ascended into heaven for the final time. This takes place in the new testament. 	<ul style="list-style-type: none"> Know and understand the five pillars of Islam. Prayer shows commitment in Islam. Muslims holy place of worship is the mosque. About the pillar Zakah About the pillar Sawn Know and understand what Ramadan is and how it 	<ul style="list-style-type: none"> Understand the BIG FRIEZE and where Salvation fits into this. Salvation is about God's relationship with humans being restored after Jesus has been killed and resurrected. Explain why Jesus' death was a sacrifice. 	<ul style="list-style-type: none"> Understand the order of the BIG FRIEZE Where Kingdom of God fits into the BIG FRIEZE including the new testament. About the idea of the kingdom of God being a place we all want to strive to get to. The kingdom of God is not a geographical location but is 	<ul style="list-style-type: none"> Main beliefs and values of Muslims Who Muslims consider to be their God Ways in which Muslims lead a good life (lives they believe will show love and respect to Allah e.g.prayer, good work, fasting in Ramadan) Muslims believe Allah will judge them when they die by

[illegible]

History		
Term1/2 An aspect or theme of British history that extends pupils' chronological knowledge beyond 1066 World War 2 <i>What was it like to be a child during World War 2?</i> <i>(this will be revisited in term 4 as part of the reading text)</i>	Learning Objectives linked to Outcomes	History Outcomes Y5/Y6
<ul style="list-style-type: none"> Develop a chronologically secure knowledge and understanding of history, establishing clear narratives within and across the periods studied. Note connections, contrasts and trends over time. Use appropriate historical terms. Ask historically valid questions about change, cause, similarity, difference and significance. Construct informed responses involving the thoughtful selection and organisation of relevant historical information. Understand how our knowledge of the past is constructed from a range of sources. A study of an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066 – a significant turning point in British history. <p>Vocabulary air raid, air raid drill, air raid shelter, Allies, allotment, atomic bomb, Axis, Powers, blackout, Blitz, British Empire, censorship, civilians, Civil Defence, Commonwealth, concentration camp, coupons, D-Day, department store, evacuee, factories, Forces, Anne Frank,(1929-1945), gas mask, general election, gramophone, Adolf Hitler, Holocaust, host family, invaded, Jews, Liberate, military uniform, naval, naval battle, Nazi occupied, prime minister, prisoners of war, propaganda, rationing, refugee, register, Resistance, scrap metal, siren, slogan, Soviet Union, steam train, stirrup, pump, telegram, Underground, United Nations, war crime</p> <p>Cross Curriculum Links</p> <ul style="list-style-type: none"> English I can write a diary entry to explore the excitement felt by those in British homes and streets when the end of the war was announced I can write an explanation text about the development of television and the types of programs shown Art – creating a memory box as part of the topic I can make a peace dove as part of a class reflection. ICT I can use technology to help me research, I can design war posters Geography looking at maps from the past and identifying locations <p>Keevil Characteristics Diligence in presentation Team work and good communication are vital during whole class discussions, this shares knowledge and improves learning</p>	<ul style="list-style-type: none"> To develop an understanding of WW2 I can discuss why it was initially known as the 'Phoney War I can identify some of the key figures during the conflict I can understand some of the major events leading up to the Battle of Britain, including the countries involved I am familiar with the location of the countries involved in first year of WW2 by locating them on a map of 1939 Europe I can understand more of the Luftwaffe's plans for invading Britain and the role Churchill's Few played in winning the battle of the skies. I am more familiar with the location of the Channel, South East coast of England and some Luftwaffe targets in the UK. I can research the work of the Home Front, including food rations. I can understand the rationale behind the 'Dig For Victory' propaganda campaign and research the extent to which the public spaces of Britain were used for allotments. I can design war posters in the style of the 'Dig for Victory' campaign. I can understand the reasoning behind the slogan 'Make do and Mend' and research clothes rationing and war shortages I can research the life of civilians at home and understand and discuss the important role civilian women played during the war. I can understand what life was like for evacuees living in the and learn about why evacuation happened I can research the events leading up to, and involved in, the D-Day landings. I can invent codenames and codes and hide them in everyday items (e.g. pens, soap, toothpaste tubes). I understand the events leading to the end of the war, the surrender of countries, the Battle of Berlin and death of Hitler I understand the concept of a treaty and consider the Paris Peace Treaties of 1947. I can make a peace dove as part of a class reflection. I am familiar with the location of the surrendering countries and movements of the Allies involved in last part of WW2 by locating them on a map of 1945 Europe <p>NEED TO KNOW</p> <ul style="list-style-type: none"> Identify some of the key figures during the conflict What are the allies and axis Understand some of the major events leading up to the Battle of Britain, including the countries involved Can locate the countries involved in WW2 on a map. What the Luftwaffe are, and how they played a significant part in the war. The location of the Channel, South East coast of England and some Luftwaffe targets in the UK. Understand the rationale behind the 'Dig For Victory' propaganda campaign. I can understand what propaganda is and the reasoning behind it. The important role civilian women played during the war. What life was like for evacuees living in the and learn about why evacuation happened The events leading up to, and involved in, the D-Day landings. The events leading to the end of the war, the surrender of countries, the Battle of Berlin and death of Hitler Understand the concept of a treaty and consider the Paris Peace Treaties of 1947. 	<ol style="list-style-type: none"> An aspect or theme of British history that extends pupils' chronological knowledge beyond 1066 Place current study on time line in relation to other studies Know and sequence key events of time studied Use relevant dates, terms and periods labels Relate current studies to previous studies Make comparisons between different times in history Study different aspects of life of different people – differences between men and women Examine causes and results of great events and the impact on people Find about beliefs, behaviour and characteristics of people, recognising that not everyone shares the same views and feelings Compare beliefs and behaviour with another period studied Write explanation of a past event in terms of cause and effect using evidence to support and illustrate their explanation Know key dates, characters and events of time studied Compare accounts of events from different sources. Fact or fiction Offer some reasons for different versions of events Link sources and work out how conclusions were arrived at Consider ways of checking the accuracy of interpretations – fact or fiction and opinion Be aware that different evidence will lead to different conclusions Confident use of the library etc. for research Use evidence to build up a picture of life in time studied Select relevant sections of information Recognise primary and secondary sources Use a range of sources to find out about an aspect of time past. Suggest omissions and the means of finding out Bring knowledge gathering from several sources together in a fluent account Use appropriate terms, matching dates to people and events Record and communicate knowledge in different forms· work independently and in groups showing initiative Select aspect of study to make a display Use a variety of ways to communicate knowledge and understanding including extended writing

Geography		
Term3	Learning Objectives linked to Outcomes	Geography Outcomes Y5/Y6
Physical Geography <i>What is happening beneath our feet?</i>		
<ul style="list-style-type: none"> locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities describe and understand key aspects of: <ul style="list-style-type: none"> physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied <p>Vocabulary natural disaster injured core inner core outer core mantle crust chimney throat, ash cloud gas molten rock crater main vent secondary vent lava flow volcanic bomb magma chamber fumarole dormant active extinct jigsaw tectonic plate fault line boundary line Ring of Fire eruption avalanche volcanic ash pyroclastic flow mud flow (or 'lahar')</p> <p>Cross Curriculum Links English Art - create a cross section of the earth DT: To make an earthquake proof structure using simple materials Science: I can make a seismograph and understand how seismic waves are recorded and measured.</p> <p>Keevil Characteristics As below</p>	<ul style="list-style-type: none"> I can identify the layers of the Earth and how volcanoes are formed. I can construct a cross section of the Earth I can study the features of tectonic plates and the features of extinct, dormant and active volcanoes. I can use map to locate volcanoes I can study the features of tectonic plates and the features of extinct, dormant and active volcanoes. I can discuss what happens when a volcano erupts and act out the build up to the eruption and the eruption I can understand some of the effects of plate tectonics I can learn about the effects of seismic waves. I can make a seismograph and understand how seismic waves are recorded and measured. I can gain an understanding of life in an earthquake zone. I can understand why and how engineers construct earthquake proof buildings <p>NEED TO KNOW</p> <ul style="list-style-type: none"> Identify the layers of the Earth and how volcanoes are formed. Can construct a cross section of the Earth Can identify features of tectonic plates and the features of extinct, dormant and active volcanoes. Can use map/atlas to locate volcanoes Can explain what happens when a volcano erupts. Understands some of the effects of plate tectonics Knows about the effects of seismic waves. Understands how seismic waves are recorded and measured. What it's like to live in an earthquake zone. Understand why and how engineers construct earthquake proof buildings 	<ol style="list-style-type: none"> Locate the world's countries, focusing on South America, concentrating on their environmental regions, key physical and human characteristics, countries and major cities. Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the tropics of cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones. On a world map locate the main countries in Africa, Asia and Australasia/Oceania. Identify their main environmental regions, key physical and human characteristics, and major cities. Describe and understand key aspects of : Physical geography including coasts, rivers and the water cycle including transpiration; climate zones, biomes and vegetation belts. Describe and understand key aspects of physical geography, including: volcanoes, tornadoes, tsunamis and earthquakes. Describe and understand human geography including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water. Use key vocabulary to demonstrate knowledge and understanding in this strand: atlas, index, coordinates, latitude, longitude, key, symbol, Ordnance Survey, Silva compass, legend, borders, fieldwork, measure, observe, record, map, sketch, graph. Extend to 6 figure grid references with teaching of latitude and longitude in depth. Expand map skills to include non-UK countries use maps, atlases, globes and digital/computer mapping to locate countries and describe features; use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world;

Term 4		Learning Objectives linked to Outcomes	
Biomes			
<i>What are the major threats to biomes?</i>			
<ul style="list-style-type: none"> locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, describe and understand key aspects of: <ul style="list-style-type: none"> physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied <p>Vocabulary tropical rain forest, tropical dry forest, tropical savannah, desert, temperate grassland, temperate woodland and shrub land, temperate forest, north western coniferous forest, boreal forest, and tundra.</p> <p>Cross Curriculum Links English Use their research to inform their writing Art I can create posters and give presentations that include persuasive arguments. Science link to adaptation DT To construct a model Eden Project selecting suitable materials for the content</p> <p>Keevil Characteristics Children <i>learn</i> to appreciate and respect the values of other people from both their own and different communities around the world. They develop their <i>communication</i> through demonstrating good listening and speaking skills. Children show <i>team work</i> when allowing everyone's ideas and opinions to be acknowledged through working as part of a team. Children develop their <i>resilience</i> through learning new geographical skills and learning about stress and hardship other communities face from natural disasters. They develop their <i>problem solving</i> skills through investigating big questions to do with the Earth they live in. Finally the children have the opportunity to further their <i>diligence</i> by producing work and displaying their findings to the best of their ability.</p>		1,2,3,4,6,7,8,9,10,11	<ul style="list-style-type: none"> I can understand the term 'biome' and identify biomes of the world. I can understand features of biomes, including vegetation, wildlife and climate. I can Identify indigenous peoples of the biomes I can understand the term 'biome' and identify biomes of the world. I can understand features of biomes, including vegetation, wildlife and climate. I can identify indigenous peoples of the biomes I can comprehend the delicate interdependent nature of ecosystems. I know about global environmental problems and solutions. I can create posters and give presentations that include persuasive arguments. I can understand the contents of a biome and how the living things in the biome are placed together. To construct a model Eden Project selecting suitable materials for the content

Design and Technology		
Term 2 EXTENSION	Learning Objectives linked to Outcomes	DT Outcomes
<p align="center">Shelters</p> <p align="center">Linked to work in History studying World War 2</p> <p align="center"><i>How did Anderson shelters keep people safe during the Battle of Britain?</i></p> <p>Design</p> <ul style="list-style-type: none"> use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design <p>Make</p> <ul style="list-style-type: none"> select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities <p>Evaluate</p> <ul style="list-style-type: none"> investigate and analyse a range of existing products evaluate their ideas and products against their own design criteria and consider the views of others to improve their work understand how key events and individuals in design and technology have helped shape the world <p>Technical knowledge</p> <ul style="list-style-type: none"> apply their understanding of how to strengthen, stiffen and reinforce more complex structures <p>Vocabulary Anderson shelter, construction, joining, , corrugated, structure, construct</p> <p>Cross curriculum Links History study of World War 2 including the Battle of Britain and life on the Home Front English write an explanation text</p> <p>Keevil Characteristics Many DT tasks will involve working as a group and sharing resources. Therefore, children will need to be good communicators and work well in a team. The children will also need to work diligently in when designing and making products as well as good problem solving skills.</p>	<ul style="list-style-type: none"> I can use my sketch book to show my design ideas I can investigate types of Anderson shelters I can evaluate different shelters I can relate the way things work to their intended purpose I can use appropriate technical vocabulary to describe materials and mechanisms I can develop a clear idea of what has to be done, planning how to use materials, equipment and processes I can explore, develop and communicate aspects of my design proposals by modelling my ideas in a variety of ways I can evaluate my design ideas as these develop, indicating ways of improving them I can join and combine materials and components accurately in temporary and permanent ways I understand simple mechanisms can be used to produce types of movement. I can use measure, mark out, cut and shape a range of materials, using appropriate tools, equipment and techniques 	<p>Technical Knowledge</p> <ol style="list-style-type: none"> how to reinforce and strengthen a 3D framework how to use learning from science to help design and make products that work how to use learning from mathematics to help design and make products that work that materials have both functional properties and aesthetic qualities that materials can be combined and mixed to create more useful characteristics the correct technical vocabulary for the projects they are undertaking <p>Design</p> <ol style="list-style-type: none"> come up with a range of ideas after collecting information take a user's view into account when designing produce a detailed step-by-step plan share and clarify ideas through discussion model their ideas using prototypes and pattern pieces use annotated sketches, cross-sectional drawings and exploded diagrams to develop and communicate their ideas use computer-aided design to develop and communicate their ideas generate innovative ideas, drawing on research make design decisions, taking account of constraints such as time, resources and cost <p>Make</p> <ol style="list-style-type: none"> select tools and equipment suitable for the task explain their choice of tools and equipment in relation to the skills and techniques they will be using select materials and components suitable for the task explain their choice of materials and components according to functional properties and aesthetic qualities produce appropriate lists of tools, equipment and materials that they need formulate step-by-step plans as a guide to making assemble components make working models use tools safely and accurately construct products using permanent joining techniques make modifications as they go along pin, sew and stitch materials together create a product achieve a quality product cut and join with accuracy to ensure a good-quality finish to the product demonstrate resourcefulness when tackling practical problems use techniques that involve a number of steps <p>Evaluate</p> <ol style="list-style-type: none"> test and evaluate my final product evaluate the design to suggest improvements, considering the materials and methods that have been used evaluate the appearance and function against the original criteria practise my evaluation skills by evaluating existing products against criteria set explain why my finished product is going to be of good quality explain how my product will appeal to the audience

Design and Technology		
Term 6 EXTENSION	Learning Objectives linked to Outcomes	DT Outcomes
<p>Marionette Puppets Linked to end of year production <i>How can I make my puppet move in different ways?</i></p> <p>Design</p> <ul style="list-style-type: none"> use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design <p>Make</p> <ul style="list-style-type: none"> select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities <p>Evaluate</p> <ul style="list-style-type: none"> investigate and analyse a range of existing products evaluate their ideas and products against their own design criteria and consider the views of others to improve their work understand how key events and individuals in design and technology have helped shape the world <p>Technical knowledge</p> <ul style="list-style-type: none"> apply their understanding of how to strengthen, stiffen and reinforce more complex structures understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages] <p>Vocabulary Manipulation, marionette, animation, hand controller, string puppet, paper Mache</p> <p>Cross curriculum Links Art the puppet will require painting English write an explanation text, link to drama and performance</p> <p>Keevil Characteristics Many DT tasks will involve working as a group and sharing resources. Therefore, children will need to be good communicators and work well in a team. The children will also need to work diligently in when designing and making products as well as good problem solving skills.</p>	<ul style="list-style-type: none"> I can use my sketch book to show my design ideas I can investigate a range of puppet types I can evaluate different puppets I can relate the way things work to their intended purpose I can use appropriate technical vocabulary to describe materials and mechanisms I can develop a clear idea of what has to be done, planning how to use materials, equipment and processes I can explore, develop and communicate aspects of my design proposals by modelling my ideas in a variety of ways I can evaluate my design ideas as these develop, indicating ways of improving them I can join and combine materials and components accurately in temporary and permanent ways I understand simple mechanisms can be used to produce types of movement. I can use measure, mark out, cut and shape a range of materials, using appropriate tools, equipment and techniques 	<p>Technical Knowledge</p> <ol style="list-style-type: none"> how mechanical systems such as cams or pulleys create movement how to reinforce and strengthen a 3D framework that a 3D textiles product can be made from a combination of fabric shapes how to use learning from science to help design and make products that work how to use learning from mathematics to help design and make products that work that materials have both functional properties and aesthetic qualities that materials can be combined and mixed to create more useful characteristics that mechanical systems have an input, process and output the correct technical vocabulary for the projects they are undertaking <p>Design</p> <ol style="list-style-type: none"> come up with a range of ideas after collecting information take a user's view into account when designing produce a detailed step-by-step plan share and clarify ideas through discussion model their ideas using prototypes and pattern pieces use annotated sketches, cross-sectional drawings and exploded diagrams to develop and communicate their ideas use computer-aided design to develop and communicate their ideas generate innovative ideas, drawing on research make design decisions, taking account of constraints such as time, resources and cost <p>Make</p> <ol style="list-style-type: none"> select tools and equipment suitable for the task explain their choice of tools and equipment in relation to the skills and techniques they will be using select materials and components suitable for the task explain their choice of materials and components according to functional properties and aesthetic qualities produce appropriate lists of tools, equipment and materials that they need formulate step-by-step plans as a guide to making assemble components make working models use tools safely and accurately construct products using permanent joining techniques make modifications as they go along pin, sew and stitch materials together create a product achieve a quality product cut and join with accuracy to ensure a good-quality finish to the product demonstrate resourcefulness when tackling practical problems use techniques that involve a number of steps <p>Evaluate</p> <ol style="list-style-type: none"> test and evaluate my final product evaluate the design to suggest improvements, considering the materials and methods that have been used evaluate the appearance and function against the original criteria practise my evaluation skills by evaluating existing products against criteria set explain why my finished product is going to be of good quality explain how my product will appeal to the audience

Computing		
Terms 5	Learning Objectives linked to Outcomes	
Programming (code.org Course III) <i>How can I use programming to solve problems?</i>	Computing Outcomes	
<ul style="list-style-type: none"> design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts use sequence, selection, and repetition in programs; work with variables and various forms of input and output use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs <p>Vocabulary Algorithm, program, programming, bug, debug. Loop, event, command, repeat, while loop, conditionals, binary, function, behaviour, sprite, variable</p> <p>Cross curriculum Links Maths – algorithms relate to maths, sequencing etc.</p> <p>Keevil Characteristics Good learning in this area requires resilience when learning new skills and diligence when applying the learning.</p>	<ul style="list-style-type: none"> I can order movement commands as sequential steps in a program. I can break down a long sequence of instructions into the largest repeatable sequence. I can define “sprite” as a character or object on the screen that can be moved and changed. I can create new sprites and assign them costumes and behaviours. I can predict where a program will fail. I can modify an existing program to solve errors. Reflect on the debugging process in an age-appropriate way I can modify an existing program to solve errors. I can create an interactive computer program that expresses who I am with text and custom images. 	
		<ol style="list-style-type: none"> Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts. Use sequence, selection and repetition in programs; work with variables and various forms of input and output. understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content

Term 1	Learning Objectives linked to Outcomes	Computing Outcomes
<p>E-safety <i>How can I protect myself and others on-line?</i></p> <ul style="list-style-type: none"> use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. <p>Vocabulary Cyber bullying, cyberstalking, respect, netiquette, chat rooms, Instagram, Tic Toc, grooming,</p> <p>Cross curriculum Links PSHE Digital Safety</p> <p>Keevil Characteristics Good learning in this area requires resilience when learning new skills and diligence when applying the learning.</p>	<ul style="list-style-type: none"> I protect my password and other personal information. I can explain the consequences of sharing too much about myself online. I can explain the consequences of spending too much time online or on a game. I protect my computer or device from harm on the Internet. I can explain the consequences to myself and others of not communicating kindly and respectfully. I support my friends to protect themselves and make good choices online, including reporting concerns to an adult. <p>NEED TO KNOW</p> <ul style="list-style-type: none"> How to protect my password and other personal information. The age limits of varies social media platforms Knows the consequences of sharing too much about myself online. The risks and consequences of spending too much time online or on a game. How to protect my computer or device from harm on the Internet. The consequences to myself and others of not communicating kindly and respectfully when using the internet and social media. How to support my friends to protect themselves and make good choices online, including reporting concerns to an adult. What the term grooming means How to report concerns I may have when online. What cyber bullying looks like. 	<ol style="list-style-type: none"> Use technology safely and respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact. Know how to guard against giving out personal information Know what to do if they are affected by cyber bullying Use digital etiquette when communicating on-line Children can begin to use a range of online communication tools eg. Forums, polls and email to exchange and develop ideas with other learners and experts in a range of curriculum contexts

Computing		
Term 4 EXTENSION	Learning Objectives linked to Outcomes	Computing Outcomes
<p>Digital Literacy (Sharing Research and Documents) <i>How can I use technology to improve how we find and share information?</i></p> <ul style="list-style-type: none"> understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information <p>Vocabulary Google, search-engine, software, programming, document, contents page, headers, footer, designs, digital content.</p> <p>Cross curriculum Links English, History, Geography research project involves information texts and writing skills and could be focussed around topics relating to and of the foundation subjects as well as science</p> <p>Keevil Characteristics Good learning in this area requires resilience when learning new skills and diligence when applying the learning.</p>	<ul style="list-style-type: none"> I can test the credibility of information form a website I can carry out an internet search I can create a google document and share I can write a research based article <p>NEED TO KNOW</p> <ul style="list-style-type: none"> Can test the credibility of information from a website Can carry out a specific internet search Can create a google document and share it. Can write a research based article Understands specific parts of documents and how to implement them into their work – headers, footers etc. Can select most appropriate form of document and give a reason. 	<ol style="list-style-type: none"> Understand computer network, including the internet; how they can provide multiple services, such as the World Wide Web, and the opportunity they offer for communication and collaboration. Combines a variety of software to accomplish given goals Selects, uses and combines software on a range of digital devices Analyses and evaluates data Designs and creates systems Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in their evaluation of digital content. Writing reports <ul style="list-style-type: none"> Cover page Contents page Page numbers Titles and headings Headers and footers

Computing		
Term 6	Learning Objectives linked to Outcomes	Computing Outcomes
<p>Creativity/Graphics (Film Making) <i>How can we become film makers?</i></p> <ul style="list-style-type: none"> understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information <p>Vocabulary Publishing, editing, framing, script, location, dialogue, microphone, Movie Maker</p> <p>Cross curriculum Links English – script writing - play scripts, editing Art simple set and prop design</p> <p>Keevil Characteristics Good learning in this area requires resilience when learning new skills and diligence when applying the learning.</p>	<ul style="list-style-type: none"> I can use appropriate software and other tools effectively to write a film script. I can locate and check appropriate digital content, and provide accurate crediting of sources I can use digital recording devices to film and import into video editing software. I can plan, conduct and import video interviews as part of a short film. I can use video editing software to create a short film. I can use video editing software to turn a film project into a finished movie and present it. 	<ol style="list-style-type: none"> Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in their evaluation of digital content. Desktop publishing <ul style="list-style-type: none"> Making posters Creating graphs and charts Art and Design <ul style="list-style-type: none"> Natural Revelation art and Publisher to extend art concepts and enhance presentation To use Microsoft/ paint to edit photos

Music	African Drumming	Space	Britain since 1930	Songwriter	Production	Music Technology and Electronic Music
	<i>Choir</i>	<i>Choir</i>	<i>Choir</i>	<i>Choir</i>		<i>Choir</i>
	<ul style="list-style-type: none"> Develops pupil's ability to perform rhythmic patterns confidently and with a strong sense of pulse. <p>NATIONAL CURRICULUM</p> <ul style="list-style-type: none"> play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression improvise and compose music for a range of purposes using the inter-related dimensions of music listen with attention to detail and recall sounds with increasing aural memory 	<ul style="list-style-type: none"> Singing, performing, composing, listening and appraising. Pupils will explore Holst's 'The Planets' focusing on ostinatos, dynamics, mood, tempo and instrumentation. Pupils will also explore Strauss's 'Also Sprach'. Pupils will create a musical soundscape to describe a journey into space. <p>NATIONAL CURRICULUM</p> <ul style="list-style-type: none"> play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression improvise and compose music for a range of purposes using the inter-related dimensions of music listen with attention to detail and recall sounds with increasing aural memory use and understand staff and other musical notations appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians develop an understanding of the history of music. 	<ul style="list-style-type: none"> Singing, performing, composing, listening and appraising. Pupils will explore musical styles in Britain during the 1930's and 40's including popular songs from WW2 by investigating their melodic shape. Pupils will explore how chromatic movement can reproduce with sliding sounds of WW2 sirens and will create their own descriptive WW2 soundscape. Pupils will explore swing/big bands and will look at how theme and variations can be used. <p>NATIONAL CURRICULUM</p> <ul style="list-style-type: none"> play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression improvise and compose music for a range of purposes using the inter-related dimensions of music listen with attention to detail and recall sounds with increasing aural memory use and understand staff and other musical notations appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians develop an understanding of the history of music. 	<ul style="list-style-type: none"> Develops children's ability to compose a song with awareness of the relationship between lyrics and melody. <p>NATIONAL CURRICULUM</p> <ul style="list-style-type: none"> play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression improvise and compose music for a range of purposes using the inter-related dimensions of music listen with attention to detail and recall sounds with increasing aural memory use and understand staff and other musical notations 	<ul style="list-style-type: none"> Pupils will learn several songs for their summer production. They will also explore music from popular musicals. <p>NATIONAL CURRICULUM</p> <ul style="list-style-type: none"> play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression listen with attention to detail and recall sounds with increasing aural memory 	<ul style="list-style-type: none"> Students will first explore the features of Chrome Music Lab on the laptops. They will compose rhythms and melodies using non standard notation and will manipulate sounds with interesting visual effects. They will learn to use the features in Bandlab. This will allow them to create tracks and loops that they can 'perform' to the class. Throughout the unit, pupils will listen to and discuss electronic music. <p>NATIONAL CURRICULUM</p> <ul style="list-style-type: none"> play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression improvise and compose music for a range of purposes using the inter-related dimensions of music listen with attention to detail and recall sounds with increasing aural memory use and understand staff and other musical notations appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians develop an understanding of the history of music.
Keevil Characteristics	Children need to work together as a team to produce and perform a variety of musical works. This requires good communication skills, as well as using music as a different means through which to share, express and communicate with others. Children show resilience to keep going even when it is tricky and diligence to produce a quality performance. They learn a variety of musical skills and techniques, and problem-solve how to use these to best effect when composing and performing.
